DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because the term "the inventions" is not permitted. Furthermore, it contains more than 150 words in length. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 101

Art Unit: 2671

3. Claims 21, 23, 25 and 27 are rejected under 35 U.S.C. 101 because they simply recite a "computer readable medium" containing "a computer program product". Thus, the claimed invention is directed to non-statutory subject matter.

Allowable Subject Matter

4. Claims 1-20, 22, 24, 26 and 28 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Wang (U.S. Patent No. 6,373,979)
- b. Seago (U.S. Patent No. 5,990,900)
- c. Czerwinski et al (U.S. Patent No. 6,243,093)
- d. Shiitani et al (U.S. Patent No. 6,097,840)
- e. Welsh et al (U.S. Patent No. 4,970,666)
- f. Chande et al (U.S. Patent No. 5,173,947).
